DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 to 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1 there is no antecedent basis for "the periphery" in line 9, and in line 10 "said" should be moved to before "two piece" for clarity. In claim 8 there is no antecedent basis for "the semi-permeable material" in line 1, "having" in line 2 should be changed to --has--, and the use of the term "surface area" to describe a unit of density (i.e., "square meters per gram) is clearly indefinite. In claim 11 the phrase "is comprised of a flexible activated charcoal fabric" in line 2 is redundant and should be deleted. In addition the use of terms such as "may be" and "alone or in combination" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Allowable Subject Matter

Claims 1 to 11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Graebe, Blocksom, and Raburn et al show seat cushions with removable covers that are of particular interest. Larned and Yamada show seat cushions which are of only general interest. Ou and Sterret show seat cushions with odor absorbing capabilities which are of particular interest.
